C/C++, Rust & Go Developer | Microarchitecture | Security | Caches | Research Scientist

Working on CPUs, passionate about building fast, secure, and scalable systems. Deep expertise in Linux internals, memory management, cache architecture, and GPU-accelerated systems. Experienced in teaching core CS subjects like **Computer Architecture, OS and Compilers and also in some Machine Learning**. Also, an independent researcher in Microarchitecture Security and compiler assessed security.

Professional Skills:

Core Expertise	System Calls, Deep Learning, Data Science, Machine Learning, Microarchitecture (Security).
Languages & Tools	Rust, Go, C/C++, Python, Java, OpenCL, Bash, Git, PowerBI, Tableau, MEAN/MERN Stack.
Operating Systems	Linux (Arch, EndeavourOS).
Interests	Systems Security, OS Internals, Open Source Contribution.

Certifications:

Python and Django Workshop Certificate - FOSSEE Project, IIT Bombay (Nov 2022)

Work Experience:

Visiting Lecturer - **Sathaye College** - November 2025 - January 2026
Lecturer - **RD and SH National College (Full-Time)** - June 2025 - Present
Visiting Faculty - **Patkar College** - July 2024 - June 2025
Visiting Faculty - **RD and SH National College** - August 2024 - Present
Lecturer, Computer Science (Full Time) - **Shriniwas Bagarka Jr. College**, June 2023 - March 2025
Computer Educator (Part-time) - **Edupro Learning**: Aug 2022 - Sept 2023
Market Research on Retail/D2C small business market of 1000+ shops that were using online payment method.

Highest Education:

Masters in Computer Science – RD National College, Mumbai	2022 - 2024
Master's in Computer Science with work on Word Sense Disambiguation (WSD).	
Bachelor in Computer Science - RD National College, Mumbai	2019 - 2022
Bachelor in Computer Science passed out specialising in Operating systems task and System Designs and infrastructure.	

Personal Projects:

[System Monitor](#)
